

I have been a faithful listener of K-LOVE for many years and this radio station has been key in helping my family through some very tough times through inspirational and uplifting music and words. It was cause an irrevocable void to not offer this station to the San Joaquin Valley. This radio station works to provide good clean family events and concerts to our area. In addition they help support events that help the poor and outcasts or our community find food/shelter and a better life. It would be in the best interest of the Central Valley to NOT replace K-LOVE with a LPFM station that may not offer the same kinds of good wholesome programming that K-LOVE affords us.

Sincerely,

Elizabeth A. Fields
